

CPD title:

Introducing the benefits of aluminium / timber windows

Idealcombi is one of Denmark's largest manufacturers of composite windows and has many years of experience in manufacturing and enhancing window design. We feel this CPD would of benefit to all those who are involved in the design process as well as individuals wanting to expand their knowledge base.

Seminar details

- Introduction to composite windows and their key components
- How timber and aluminium are used to create high specification products
- Understanding the environmental issues surrounding these windows
- On-going development of composite windows

The presentation will take approximately 40 minutes and would make an interesting and ideal lunch time event.
